

Rajasthan Helper CLI

Weather 🌞, Festival 🎉, Travel Tips 📌

Built with Free GitHub Copilot CLI in ~20 Prompts

Features

The Rajasthan Helper CLI provides quick access to essential information about Rajasthan, India, directly from your terminal. Here's what you can do:

- **Weather Information:** Get current weather conditions for various cities in Rajasthan.
- **Festival Details:** Learn about upcoming festivals and their significance.
- **Travel Tips:** Discover essential travel advice for visiting Rajasthan.
- **See Demo:** [Insert screenshot of weather Jaipur panel]

Getting Started

Follow these steps to get the Rajasthan Helper CLI up and running on your local machine:

1. **Ensure you have the GitHub Copilot CLI installed:**
 - Ensure you have the GitHub Copilot CLI installed: `npm install -g @github/copilot`
 - Clone the repository: `git clone https://github.com/Chetan-code-Irca/rajasthan-helper.git`
 - Navigate to the folder: `cd rajasthan-helper`
 - Install dependencies: `pip install -e .`
 - Run examples: `rajasthan-helper weather Jaipur`

Demo
